NASA review completed.

Dr. Robert C. Seamans, Jr.
Deputy Administrator
National Aeronautics and
Space Administration
Washington, D. C. 20546

Dear Bob:

On February 10, 1966, [redacted] and two other CIA personnel met with Dr. Mac Adams and Dr. Herman Kuraweg at NASA for a preliminary discussion concerning the first meeting of the Advisory Panel on Advanced Research and Technology. It was decided that the first meeting will be held at CIA Headquarters on March 24, 1966 and will include discussions of the key areas of: 1) Electronics, 2) Chemical Propulsion, 3) Space Power and Electric Propulsion, and 4) Materials. In this connection, Dr. Adams nominated four NASA officials who could provide a significant input in each of these areas; respectively, Frank Sullivan, William Woodward, Del Tischler, and George Deutch.

If you agree with this selection, I would appreciate your designating them as official Panel members, in addition to Dr. Adams and Dr. Kuraweg.

We are confident that their participation will provide
the type of intimate technical knowledge that is
necessary for the successful operation of the Panel.
